

GET THE BODY YOU WANT

WITHOUT SURGERY, DOWNTIME, OR PAIN.

ZERONA®
VZ8®
Non-invasive Fat Loss

Fat loss doesn't need to be invasive, painful, or slow.

Zerona VZ8 targets stubborn fat in a way diet and exercise can't—using violet laser technology to slim the body without a single touch.

Backed by clinical research and powered by **405nm** laser light, Zerona stimulates fat cells to release stored fatty content naturally—helping you lose inches without discomfort, downtime, or damage.

WHY PATIENTS LOVE ZERONA VZ8

EFFORTLESS FAT REDUCTION

Targets fat without freezing, heating, or destroying cells—focusing on natural metabolic release, not destruction.

WORKS WELL WITH YOUR WELLNESS PLAN

Enhance your results—pair Zerona VZ8 with healthy eating, exercise, or GLP-1 medications for even greater success.

RESULTS IN TWO WEEKS

Most patients experience noticeable inch loss in as little as **two weeks**, with sessions as quick as **20 minutes**.

SAFE & EFFECTIVE

Clinically proven and FDA-cleared for full-body circumference reduction, Zerona VZ8 is the leading non-invasive fat loss solution.

CLINICALLY BACKED TECHNOLOGY

FDA Market-Cleared and supported by clinical research for safe, effective body contouring.
