

REVEAL

Your True Shape

ZERONA revolutionizes body contouring in a safe, effective treatment. There are no needles, no incisions and no recovery time needed.

Clinical trials confirmed the amazing effects that ZERONA® had on adipose tissue (fat storing cells). The results demonstrated that a small pore was created in the protective membrane of the fat cell enabling the fatty matter to seep out of the cell. Our bodies then safely eliminate the fat using the lymphatic system.

BAZAAR^{Harper's}

Let's face it, who doesn't want to look and feel their best? For some of us, that means fitting into the jeans you haven't been able to wear no matter how much you diet or exercise. For others, it's making a commitment to slim down and start living a healthier lifestyle.

Regardless of your motivation, ZERONA is the only clinically-proven, safe and painless red laser to slim down and lose inches without surgery and without downtime.

In 2 weeks, ZERONA can help you lose stubborn fat from the targeted areas of your waist, hips, thighs and arms.

ZERONA for Every Body

Whether you are a new mom, an athlete, a bride-to-be, or just want to slim down, you aren't alone and ZERONA can help you

You can also have confidence knowing that ZERONA is the safest and most researched low-level laser in the world.

ZERONA results have been proven through double-blind, randomized, multi-site and placebo-controlled clinical studies in which clients, on average, lost 3.64 inches from their waist, hips and thighs in the 1st study and 3.72 inches in the 2nd study.

These results were dramatic compared to the placebo group, which only lost an average of half an inch over the same time period*.

Most recently, Zerona received 510(k) market clearance for a once a week protocol which resulted in 6.2 inch reduction over 6 weeks.
